

Credentials

EUROPEAN SOCIAL SPORT COACH

to certify your educational and technical - sporting skills in Europe

What is Europass

With the support of the
Erasmus+ Programme
of the European Union

Europass is a set of online tools and information from the European Community to help manage every stage of citizens' learning and career.

Europass allows you to effectively present your skills and qualifications. The European Commission offers this service in 29 different languages.

The Europass tools to create your CV

With the support of the
Erasmus+ Programme
of the European Union

Europass offers online tools that help students, workers and job seekers across Europe.

Europass profile <https://europa.eu/europass/en/>

The Europass profile helps describe skills, find job and learning opportunities, manage applications and create CVs and cover letters.

The Europass tools to create your CV

With the support of the
Erasmus+ Programme
of the European Union

Europass CV editor

With the Europass editor you can:

- create and update CVs
- choose between different models
- to keep them on your device or in the Europass library e easily share CVs in 29 languages.

Cover letter editor

With the cover letter editor, you can use various templates to create structured, visually appealing, and professional cover letters.

The Europass tools to create your CV

With the support of the
Erasmus+ Programme
of the European Union

Diploma supplement

The Diploma Supplement provides information that facilitates understanding of the knowledge and skills acquired during higher education.

Certificate supplement

The certificate supplement provides information that helps to understand more easily what knowledge and skills the person has acquired during vocational education.

Europass mobility

Europass mobility helps to illustrate the skills acquired during the mobility experiences in a simple, coherent and understandable way.

Europa al tuo servizio

With the support of the
Erasmus+ Programme
of the European Union

Reliable information on studying and working in Europe

Europass provides reliable information on studying and working in different European countries, providing links to useful European and national sources. This can help you find courses, jobs, guidance, and assistance with validating and recognizing your qualifications.

The value of Europass: the credentials

With the support of the
Erasmus+ Programme
of the European Union

Europass digital credentials are legally equivalent to paper certificates.

They allow organizations to issue digital, non-falsifiable qualifications and other learning credentials.

Credentials are used to obtain jobs, college internships, and more.

With Europass, certificates and diplomas can be stored and shared securely and printed on paper.

The value of Europass: the credentials, what they are

With the support of the
Erasmus+ Programme
of the European Union

Europass digital credentials (EDCI - Europass Digital Credentials interoperability) describe a learning outcome. They can describe activities, assessments, professional qualifications, and certificates that facilitate the safe and efficient recognition across Europe of qualifications and other learning outcomes.

The EDCI supports authentication services for all digital documents or representations of information on skills and qualifications, as referred to in **art. 4, part 6, Europass decision**.

The credentials are an authentic statement containing information about a person issued by an educational institution as a result of a learning experience.

The Europass path: create the personal profile

With the support of the
Erasmus+ Programme
of the European Union

With Europass you can create **a personal profile** complete with skills, qualifications and experiences in an online and secure way.

You can register:

- all work experience,
- study paths and training courses of every level and duration
- technical skills
- linguistic knowledge
- digital skills
- experiences of volunteering
- all the results achieved considered important.

The Europass path: Keep and protect your CV

With the support of the
Erasmus+ Programme
of the European Union

Diplomas, reference letters or other documents can be stored in the personal Europass library. The profile can be created in multiple languages.

Applications must be prepared and registered

- Register all applications
- prepare CVs and cover letters
- share data.

The Europass profile is your personal record of your achievements. It can be constantly updated and enriched to always have access to a complete picture of skills.

All personal information contained in the Europass profile is secure and protected by an ID and password

Europass: the advantages of the system

With the support of the
Erasmus+ Programme
of the European Union

The credentials include a wide range of useful information that facilitates the recognition and understanding of skills by employers and institutions.

Europass digital credentials have a number of advantages over paper certificates:

- *lighten the handling of administrative procedures*
- *reduce the impact of fraud*
- *allow instant verification of the identity of the issuing body*
- *guarantee the quality of the qualification.*

Europass digital credentials are signed with an electronic seal that ensures legal authenticity throughout the EU and equivalence with paper credentials containing the same information.

Objective of the HR + So project: the issue of qualifications through Europass

With the support of the
Erasmus+ Programme
of the European Union

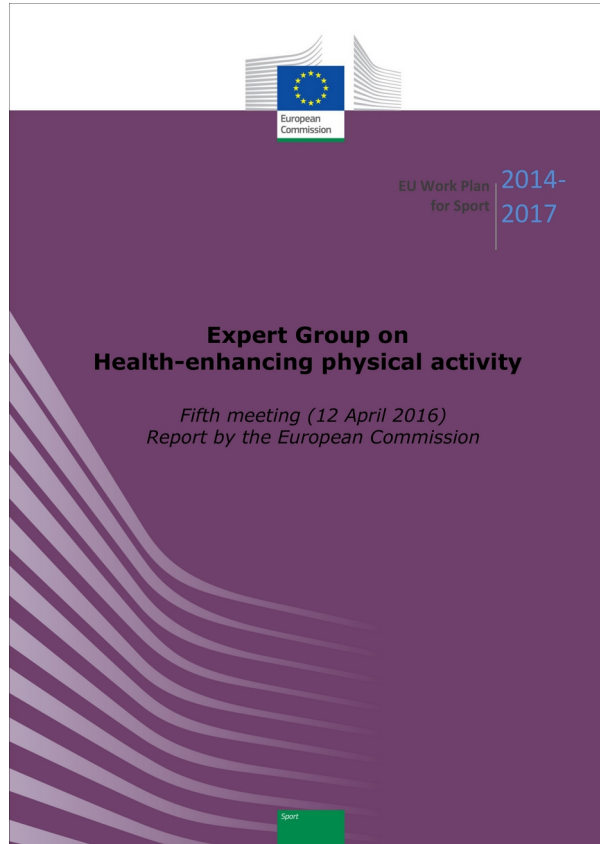

The qualifications issued by UPKL are an integral part of the European Social Sport Coach program promoted in the Final Report of the European Commission XG HEPA and approved in Cyprus on 12 April 2016.

The instructors who collaborate in the project, at the end of the course (November 2022) through the Europass portal, will receive the credentials and diplomas certifying the skills achieved.

The ESSC Program in Final Report della Commissione EU - XG HEPA

Observers informed about relevant initiatives, including UPKL and their European Social Sport Coach programme, and EuropeActive and the objective of the fitness sector to have 80 million members in health and fitness centres by 2025.

would be organised in June with these countries to discuss further about expected involvement, implementation details and timetable.

The Council Conclusions invited in particular the European Commission to develop physical activity guidelines for children in ECEC settings, schools and sport clubs, in collaboration with scientific experts including the WHO, targeting in particular policy makers, local authorities, parents, family and wider community. UK informed that it had already defined such guidelines, in line with recommendations from the World Health Organization.

Observers informed about relevant initiatives, including UPKL and their European Social Sport Coach programme, and EuropeActive and the objective of the fitness sector to have 80 million members in health and fitness centres by 2025.

7. REFLECTION & FEEDBACK ON THE WORK OF XG HEPA IN VIEW OF THE FUTURE EU WORK PLAN FOR SPORT

The European Commission recalled that, in the Resolution on a European Union Work Plan for Sport (2014-2017), the Council and the representatives of the governments of the Member States invited the Commission to "adopt by November 2016 and on the basis of voluntary contributions from Member States, a report on the implementation and relevance of the Work Plan" as a basis for the preparation of a possible EU Work Plan during the first half of 2017. It informed that consultations of relevant stakeholders had started at the recent EU Sport Forum in March in The Hague, with a dedicated discussion panel, and were currently going on. Member States and sport organisations would receive soon a detailed questionnaire in order to collect their views in a structured way on different aspects of the EU Work Plan for Sport and suggestions for the future.

Besides these formal questionnaires, this session of the XG HEPA allowed experts and observers to share already their own thoughts and views. The importance to keep HEPA in future priorities was voiced explicitly and strongly by the group.

The too high time pressure for the first deliverable of the XG HEPA was raised. Exchanges of good practices and networking taking place in the XG HEPA were considered very useful, as well as contributions from observers during the works (an even more active participation was suggested). Deepening these exchanges of good practices on very specific aspects of HEPA was suggested. Cooperation with health, education and sport systems was considered an important dimension to be further strengthened. Cooperation across Member States on measurement of physical activity prevalence was also considered useful to deepen, in order to ensure comparability of data across Europe. Finally, a suggestion to rename the EU Work Plan for Sport into EU Work Plan for Sport and Physical Activity was made.

8. CONCLUSION OF THE NEXT MEETING

It was agreed that a sixth and last meeting of the XG HEPA under the EU Work Plan 2014-2017 could be organised in January-February 2017 if necessary, with a view to take stock of recent developments and align views in view of a possible new EU Work Plan for Sport.

Dr. Clea Hadjistefanou Papaellina, Chairwoman of the Cyprus Sport Organization, addressed the group and expressed the interest of Cyprus in increasing cooperation with other Member States, the World Health Organization and the European Commission, with the view to address the worrying level of physical inactivity in Cyprus.

The European Social Sport Coach program aims to raise the skills of sports teachers in the area of social education to encourage and develop Active Citizenship processes through an approach to Human Rights.

Issue procedure

Step 3 - Authentication of Europass credentials

The EDCI Authority notifies the interested party of the credentials by e-mail.

The screenshot shows an email client interface. The left sidebar contains navigation icons for 'Nuovo mes...', 'E-Mail', 'Contatti', 'Calendario', and 'Impostazioni'. The main area displays an email from 'sg@europe-upkl.eu' with a subject line 'Your EUROPEAN SOCIAL SPORT COACH FOURTH LEVEL EDUCATOR'. The email body contains the following text:

Dear Mario Rossi,

You have received a Europass Digital Credential from UNION OF PROFESSIONALS KI LIFE AISBL titled: "EUROPEAN SOCIAL SPORT COACH FOURTH LEVEL EDUCATOR", please find it enclosed in xml format. This file contains information about your achievement and can be validated to ensure its authenticity.

To view your credential, first you have to upload the file to [https://ec.europa.eu/european-social-sport-coach-fourth-level-educator/ass/digital-credentials/viewer](#) where you can upload the file to visualise its content. From here you will also be able to print, export and validate the credential.

The Europass Team

Issue procedure

Step 4 - generate the Europass certificate

The interested party enters, by following the link, the credentials received by email in the Europass portal. He thus obtains the complete certificate of the dossier with the attributes that certify the qualification, skills, field of application, training hours and date of issue. The certificate is valid for one year.

The screenshot shows the Europass Digital Credentials website. At the top, there is a navigation bar with the Europass logo and the text "European Union". Below this, there is a main header with the title "Europass Digital Credentials" and a sub-header "Prove your learning activities and achievements with electronically sealed digital records issued by your educational institution and fully integrated with your Europass profile." The main content area is divided into two sections: "Credentials for Citizens" and "Credentials for Issuers". The "Credentials for Citizens" section is highlighted and contains the following text: "View, Verify and Download your Credentials" and "To view a Europass Digital Credential received by e-mail, upload the XML file here. The credential contains rich data about your accomplishments. The tool will allow you to check the authenticity and validity of the credential, as well as print or download it as pdf. Europass does not store your credential after you close the window. To store your credential in your Europass profile, login to your account here." A yellow button labeled "Upload Credential" is visible on the right side of the "Credentials for Citizens" section.
